

## Liberty Recording Suite v9.0 – Feature Enhancements (April 2026)

### 01) LCR: Updated UI Labels in Options → Recording

- “Recording” → “**Audio and Recording**”
  - “External Device” → “**Helper Settings**”
  - “Use external devices” → “**Use Helper Service**”
  - “Allow external device to control recording” → “**Allow Helper Service to control recording**”
- 

### 02) LCR: Improved Email Subject Line for Troubles Reports

- The subject line now includes the **1-line error message** associated with the Troubles report.
- 

### 03) LCR: Updated Licensing Text in Logo Window and Help → About

- “End of license period: No limit” → “**End of license period: Perpetual.**”
- 

### 04) LCR: Relocate “Speech to Text” Options to new tab

---

### 05) LCR: Updated UI in Options → Broadcast RTP/NDI

- “Enable stream to MS Azure Speech to Text service” → “**Apply Speech to Text service to this stream.**”
- 

### 06) LCR + LVC: Added Divider Between Conferencing and Gallery Users

- In the CM window, a **visual separator** now distinguishes Conferencing users from Gallery users.
- 

### 07) LCR: Broadcast Event Log Saved to DCR File

- Includes **mute/unmute** and other broadcast-related events.
- 

### 08) LCR: Improved STT Channel Naming

- Uses the **remote participant's name** in channel labels.  
Example: “ch# Judge Smith” → “**ch: Judge Smith.**”
-

**09) LCR: Enabled Public Broadcasting for Network Monitor**

---

**10) LCR: Added Broadcast Start Rules in RTP Streaming Settings**

---

**11) LCR: Real-time Speech-to-Text Results Included in Recording File as an attachment bookmark**

---

**12) LCS + LCR + LVC: CM Now Supports Returning Users to a Different Lobby**

---

**13) LCS + LCR + LVC: Added UI Controls to Enable/Disable Participant Abilities**

***LVC Conference Defaults***

- Enable listening by default for Gallery users (default on)
- Allow Self-Join (default off)
- Allow Chat (default on)
- Allow leaving Private Rooms (default off)
- Allow Screen Sharing (default on)
- Mute microphone on connect (default on)

- Conference must be recorded (default off)
  - Allow recorded private rooms (default off)
- 

**14) LCS+LVC: Allow Conference Manager to Spotlight Video Feeds to Far End**

---

**15) LCS: Added Ability to Assign Roles to Specific Courtrooms**

---

**16) LCS + LCR + LVC: Added Configurable Case/Docket/Ticket Label to Server Settings**

- LVC and LCR retrieve and display this value automatically.
- 

**17) LCR: Enhanced File Attachment Bookmarks**

- Notes area now displays: "File = Full\_file\_name."

---

**18) LCS + LCR + LVC: Added “Parallel Private Rooms” (the ability to use a private room for all calls)**

- A Private Room can be selected when the SIP **Call** button is used.

---

**19) LVC: Added “More...” Dialog for List Columns**

---

**20) LCR: Added “Show/Hide Other Recorders” Option in the Lobby**

---

**21) LVC: Updated Help Content**

- Removed 32-bit references

---

**22) LCR + LVC: Default Role Color Behavior Improved**

- When assigning a role to a previously unassigned participant, the default is now **“Use Role’s Color.”**

---

**23) LVC: Updated Lobby Login Messages Across All Apps**

- Messages previously updated only in WebRTC are now updated in all related apps.

---

**24) LCS + LCR + LVC: Added Server Parameter to Disable Recording Private Rooms**

- Also removes **“Create room with pause”** button when disabled.

---

**25) LCR: Added User Control for CD/DVD Burning Speed**

---

**26) LVC: Mobile Apps UI Updated**

---

**27) LVC: Updated Layout with Additional Customizable Labels for Invitation Links / Download Pages**

---

**28) LCR + LVC: Updated Icons for Conference Manager UI**

---

**29) LCR + LVC: Assign Interpreter Controls to Temporary Users**

---
